

A message from  
our  
principal

Mrs. Sharon Lydon

Welcome to St. Martin School in Sunnyvale, California. We are proud to have a long tradition of educating young people in the Catholic tradition. Recognizing the parents as the primary educators, our teachers, staff, and administrators expand on this early teaching to produce young adults who celebrate faith, practice morality, seek justice, and perform service. I encourage you to speak with me, our teachers, or staff to determine if St. Martin is the school for you and your family.

# St. Martin School

School-wide Learning Expectations

A St. Martin Student:

**L**oves God  
**E**mbraces diversity  
**A**ccepts responsibility  
**R**espects all things  
**N**ourishes mind, body, and soul  
**S**erves the community.

# St. Martin School

Building God's Kingdom  
through family,  
community, and  
participation

St. Martin  
School

St. Martin Catholic School provides a safe, academically challenging environment where learning blends with faith to educate the whole person. We instill in our students a respect for diversity and a lifelong commitment to learning, to Christian values, and to community service.

# Welcome to St. Martin School

Since 1953 St. Martin School in Sunnyvale has educated young men and women in a faith-filled and academically challenging atmosphere.

We acknowledge the parents as partners in the business of educating the children and welcome their suggestions and insights into their children's needs.

At St. Martin School we celebrate the unique talents of every child. Besides a strong, standards-based curriculum in core subjects, we offer classes in religion, music, physical education, and art.

Field trips are an integral part of the curriculum, and we often invite presenters to speak to individual classes and the entire student body.

Teachers collaborate and cooperate to ensure that students learn the skills and concepts they need to move to the next grade level.

We welcome you to tour our school, observe classes in session, and speak to our teachers and students. We believe you'll find St. Martin to be the best choice for you and your family.

## St. Martin School The Right Choice

### Credentialed teachers:

- **All our teachers are credentialed by the state of California. We actively pursue professional development opportunities to ensure best-practice teaching and student success.**

### Technology:

- **Our computer lab boasts thirty-six desktop Apple computers. Students from kindergarten through eighth grade use the lab to compose papers, conduct research, and prepare presentations.**
- **The computer lab, science lab, and eighth grade have SmartBoards, display boards that allow the children and teacher to interact with projected websites, lessons, and virtual searches.**

### Science lab:

- **Grades 4—8 attend science class in our state-of-the-art science lab, which houses a lecture room and an actual lab area for conducting experiments. The primary grades are often invited to the science lab to conduct their own standards-based experiments.**

### Involved parent community:

- **Parents make an essential contribution to the success of our school. From working in the classroom to driving on field trips to chairing fund-raising events, our parents show through example that service and volunteerism demonstrate strong Christian values and enhance the St. Martin family.**

**St. Martin School does not unlawfully discriminate on the basis of race, color, national or ethnic origin, age, sex, or disability in the admission of students, the administration of educational policies, scholarship, and loan programs, and athletic and other school administered programs.**
