

Come discover the gifts of a faith filled education. St. Martin School is a safe and supportive school environment, where students can enjoy their days, discovering and developing their skills and talents while benefiting from being part of the close and caring community that defines the school.

St. Martin's traditional Catholic education – enhanced by enriched programming like regular music classes, hands-on-science and state-of-the-art technology – provides students with the tools they need to make positive choices every day.

Meet us, tour classrooms, ask questions, and discover the difference at St. Martin School.
